(Special to the "News.") Fillmore, Utah, Nov. 14 .- An earthquake of considerable violence visited this city last night at 10.45 o'clock. Wadows, doors, dishes and individuals got a severe shock. In many instances the plaster was shaken from the houses and it was almost impossible for a person to maintain a standing position.

Some women ran screaming into the street, others attired in their night clothes ran for their neighbors, while brave men gave unmistakable signs of fear. There were three distinct undulating waves, accompanied by a roaring noise, the duration of which has been variously estimated at from one to three minutes of time.

UTAH-IDAHO MILLS TO CONSOLIDATE.

Roller Flour Plants to be Syndicated by January 1—Deal Involving \$1,200,000— A. E. McKenzie Arrives.

The deal by which a syndicate of eastern capitalists will secure the control of the milling industry of Utah and southern Idaho is rapidly nearing consummation. Ambroise E. McKenzie, of per cent of the mills of Utah and southern Idaho, returned this morning from Denver after making his report. When seen at the Kenyon this afternoon he stated to a "News" representative that everything connected with the transaction is progressing nicely and as rapidly as possible. "There is every reason in the world," said he, "for the belief that the deal will be consummated on the lines originally planned and by the first of the coming year as we intended. I am on my way to the Bear Lake Duck club for an outing with Judge Bradley and others and really haven't much I may talk about now." However, before discontinuing Mr. McKenzie stated that he stopped over here to meet a certain gentleman interested in the deal and it is more than probable that it was Hon. Moses Thatcher who is in Salt Lake today.

It is generally the belief among flour men here that the deal has been con-summated and only awaits the making out of the papers and of checks to an amount between \$500,000 and \$1,000,000. By the deal the syndicate will secure the principal mills in southern Idaho, and the Cache, Weber, Davis, Salt Lake, Utah and Sanpete county mills pesides the principal ones elsewhere in the state. It is estimated that over \$1,-00,000 is involved in the transaction

The pool is one of the largest ever transacted in Utah. Several times before there have been attempts to get the millers of the state together in the form of a combination for mutual protection and profit but they have always met with failure. It is the opinion of the millers of this city generally that there is not a safer and a better in-vestment in the state than the flour milling industry on the plans outlined by the Denver syndicate, which is se-

curing the control now. They say that flour milling can only be conducted profitably in this state by such a combination as the supply can be regulated and prices maintained.

NORTHWESTERN SECURITIES DIRECTORATE

Personnel Announced Today-Dan Lamont Finds a Place Among The Directors-Affairs of the Burlington Are Still Unsettled.

A bulletin from New York today announces that the directorate of the Northern Securities company, incorporated vesterday at Trenton in connection with the settlement in the northwestern situation, was announced today. It is composed as follows:

John S. Kennedy, Willis James, Sam, uel Thorne, J. J. Hill, E. T. Nichols, J. ker, Robert Bacon, J. W. Perkins, Daniel S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P. Clough, C. A. Clark and N. Terhume.

Another adjurnment of the annual stockholders' meeting of the Burlington was taken in Chicago today, this time until November 21. The Post today says that while details which would show the reason for the delay in the election of directors are lacking it is apparent that the settlement of the Great Northern difficulty does not cartroubles. It is evident, says the Post, that the proportion of representation which should be accorded the different interests is still a stumbling block.

CONFERRED WITH PRESIDENT. On Isthmian Canal and Pacific Cable Legislation.

Washington, Nov. 14.—Representa-tive Hepburn, of Iowa, chairman of the interstate and foreign commerce committee of the House, and Representative Sherman, of New York, a member of the same committee, had a long conference with the President today about the isthmian canal and Pacific cable legislation. As a result of the consultation they announced that it was their purpose to press legislation on both subjects at the earliest ble moment. The canal bill passed the House at the last session, will be re-introduced in substantially winter. No delay is anticipated in the committee as the whole subject has been canvassed thoroughly. Col. Hep-burn told the President that the bill undoubtedly would have a large mae identical with the one reported from the committee during the last * Con cable by a private corporation under a contract with the postmaster-general with the alternative provision for the building of the cable by the government if no satisfactory contract can be made. A Probable Marine Disaster.

Philadelphia, Nov. 14.-Capt. Ferlan. the Australian steamship Etelka, has brought to this port news of a probable marine disaster. Early on the morning of November 8, when the Etel-ka was in lat. 41, north, long., 59 west, Capt. Ferlan stated that his attention was drawn to what he believes to have been a burning ship. The craft was invisible but the glare of the fiame could be plainly seen. The course of the Etelka was changed, but before she could reach the burning vessel an explosion apparently occurred and the ship was torn to pieces. The Etelka cruised about in the vicinity of where the fire occurred but could find no trace of any f the crew who it was thought, might have taken to the small boats. Capt. Ferlan says just before the ex plesion the flames shot high in the air, which leads him to believe that the vessel was probably an oil carrier.

It was impossible, he says, to identify the vessel.

THE MOSQUITO INDIANS. Great Britain Endeavoring to Re-

linquish Her Protection Over Them Washington, Nov. 14.-The statement in a Managua dispatch credited to Mr. Paget, the British secretary of legation there, to the effect that the United States has approved the claim of Great Britain to be recognized as a protector of the Mosquito indians has attracted the attention of the diplomatic body here. An inquiry indicates that there is danger of a complete misunder-standing of the matter. The British government is endeavoring to ate a treaty with Nicaragua which will enable the British to retire from all claim of jurisdiction on the Mosquito coast, leaving Nicaragua in full sovereignty there, with due guaranteer for the proper treatment of the indians hitherto under British protect The United States government has

taken no action in the matter but it is, course, to the interest of this country that some such absolute recognition of the sovoreignty of Nicaragua should be made and the pending questions arising out of the treaty of Managua between Great Britain and Nicaragua gotten out of the way. The fact is that so far from acquir-

ing any new privileges on the Mosquito coast, the British government is re-linquishing those it now enjoys. The treaty of Managua negotiated about fifty years ago between Great Britain an Nicaragua imposed upon the Eng-lish government the duty of protect-ing the Mosquito Indians.
